		Rev. No.	00
		Rev. Date	05/05/2026

<u>Date:</u>	27 May 2026
---------------------	-------------

<u>RFQ Reference Number:</u>	CNWE-SH-RFQ-2026-031
-------------------------------------	-----------------------------

You are hereby invited to tender for the below mentioned Scope of Work / Supply, in accordance with the Project Specifications and Requirements as specified.

<u>Project Details:</u>	
Project Name:	Notsi 475MW Solar Park
Contract No:	
Location:	Dealesville, Freestate, Tokologo Municipality
Completion Date:	5 May 2028

<u>RFQ Specific Details:</u>																									
Scope of Work/Supply:	The appointed Service Provider shall provide domestic waste collection, removal and transportation services for the PV Project.																								
	The Service Provider shall collect domestic waste from designated waste collection areas on site and transport the waste to the appointed receiving company nominated by the project.																								
	The Service Provider is not responsible for treatment, processing or final disposal of the waste. These activities will be handled by the appointed receiving company.																								
	<u>1. Waste Streams to be Collected and Transported</u>																								
	The Service Provider must tender on the collection and transport of domestic site waste, including:																								
	<table><tr><th>No.</th><th>Waste Stream</th><th>Requirement</th></tr><tr><td>1</td><td>General domestic waste</td><td>Collection and transport from site to the appointed receiving company</td></tr><tr><td>2</td><td>Food waste</td><td>Collection and transport from site to the appointed receiving company</td></tr><tr><td>3</td><td>Office waste</td><td>Collection and transport from site to the appointed receiving company</td></tr><tr><td>4</td><td>General site bins</td><td>Collection and transport from approved waste areas</td></tr><tr><td>5</td><td>Canteen waste</td><td>Collection and transport from approved waste areas</td></tr><tr><td>6</td><td>Ablution-related general waste</td><td>Collection and transport where applicable, excluding sewage waste</td></tr><tr><td>7</td><td>Non-hazardous general waste</td><td>Collection and transport as approved by the project team</td></tr></table>	No.	Waste Stream	Requirement	1	General domestic waste	Collection and transport from site to the appointed receiving company	2	Food waste	Collection and transport from site to the appointed receiving company	3	Office waste	Collection and transport from site to the appointed receiving company	4	General site bins	Collection and transport from approved waste areas	5	Canteen waste	Collection and transport from approved waste areas	6	Ablution-related general waste	Collection and transport where applicable, excluding sewage waste	7	Non-hazardous general waste	Collection and transport as approved by the project team
No.	Waste Stream	Requirement																							
1	General domestic waste	Collection and transport from site to the appointed receiving company																							
2	Food waste	Collection and transport from site to the appointed receiving company																							
3	Office waste	Collection and transport from site to the appointed receiving company																							
4	General site bins	Collection and transport from approved waste areas																							
5	Canteen waste	Collection and transport from approved waste areas																							
6	Ablution-related general waste	Collection and transport where applicable, excluding sewage waste																							
7	Non-hazardous general waste	Collection and transport as approved by the project team																							
	<u>2. Excluded Waste Streams</u>																								
	The following waste streams are excluded from this scope unless separately approved in writing:																								
	• Hazardous waste. • Medical waste. • Sewage waste. • Chemical toilet waste. • Used oil and oily waste. • Chemical containers. • Paint containers. • Contaminated soil. • Spill clean-up material.																								

- E-waste.
- Damaged PV modules.
- Concrete washout waste.
- Rubble.
- Scrap metal.
- Cable offcuts.
- Timber waste.
- Pallets.
- Bulk packaging waste.

3. Collection Requirements

The Service Provider shall collect domestic waste from designated waste storage or collection areas only.

The scope includes:

- Scheduled domestic waste collection.
- Additional collections when instructed by the project team.
- Removal of full bins, skips or containers before overflow occurs.
- Replacement of full bins or containers with empty containers where required.
- Safe loading of domestic waste.
- Securing of loads before transport.
- Prevention of windblown waste during loading and transport.
- Cleaning of the collection area where waste is spilled during collection.
- Immediate reporting of spills, dropped waste, unsafe conditions or environmental incidents.

4. Transport Requirements

The Service Provider shall transport collected domestic waste from the project site to the appointed receiving company.

The Service Provider must ensure that:

- Vehicles are roadworthy and suitable for domestic waste transport.
- Drivers have valid licences and PrDPs where applicable.
- Loads are covered or secured to prevent waste from falling or being blown from the vehicle.
- No waste is dumped, buried, burned, abandoned or taken to an unauthorised location.
- Waste is delivered only to the appointed receiving company or approved receiving facility.
- Transport routes and delivery instructions are followed.
- Vehicles comply with site access, security and traffic management requirements.

5. Site HSE Requirements

The Service Provider must comply with all project HSE requirements, including:

- Contractor onboarding before work starts.
- Submission and approval of the service provider safety file before mobilisation.
- RAMS to be submitted to CNWE for approval.
- Site induction for all employees before entering the work area.
- Use of mandatory PPE.
- Compliance with site traffic management rules.
- Compliance with waste handling procedures.
- Compliance with spill prevention and emergency response requirements.
- Immediate reporting of unsafe conditions, environmental incidents, injuries, near misses or non-conformances.
- No burning, burying, scavenging or unauthorised sorting of waste.
- No removal of waste by unauthorised persons.

6. Documentation and Records

The Service Provider must submit the following records:

- Waste collection register.
- Waste transfer note.
- Delivery note from the appointed receiving company.
- Weighbridge slip, where available.
- Date and time of collection.
- Waste type collected.
- Quantity collected.
- Vehicle registration number.
- Driver name.
- Receiving facility details.
- Receiving person signature, where available.
- Incident reports for spills, leaks or transport incidents.
- Corrective action records where waste-related non-conformances occur.

	7. Monthly Reporting The Service Provider must submit a monthly domestic waste transport report. <u>The report must include:</u> • Date of each collection. • Waste type collected. • Quantity collected. • Unit of measurement. • Vehicle registration number. • Driver name. • Destination facility. • Copies of transfer notes. • Copies of weighbridge slips, where available. • Copies of receiving facility delivery notes. • Waste transport issues, incidents or non-conformances. 8. Emergency and Spill Response The Service Provider must have procedures and equipment in place to manage waste-related incidents during collection, loading and transport. <u>The scope includes:</u> • Spill response procedure. • Emergency contact list. • Spill kit on waste transport vehicles where required. • Immediate notification to the project team of any spill, leak, dropped load or waste transport incident. • Clean-up of any waste spilled during collection, loading or transport. • Incident report and corrective action report after any waste-related incident. 9. Tender Submission Requirements The Service Provider must submit the following with the quotation: • Company profile. • Proof of domestic waste collection and transport experience. • Vehicle list. • Driver details and licences. • Waste collection and transport methodology. • Proposed collection frequency. • Emergency collection availability. • Proposed bin, skip or container options, where applicable. • Pricing schedule. • Assumptions and exclusions. • Confirmation that waste will only be transported to the project-appointed receiving company. 10. Pricing Requirements <u>The quotation must clearly show pricing for:</u> • Domestic waste collection. • Transport to the appointed receiving company. • Bin, skip or container supply, where applicable. • Bin, skip or container replacement. • Emergency collection. • Weekend or after-hours collection. • Transport fees. • Weighbridge fees, where applicable. • VAT. • Any exclusions. 11. Project Requirement The Service Provider’s responsibility is limited to the safe collection and transport of domestic waste from the PV Project site to the appointed receiving company. All collection, transport and delivery records must be suitable for audit purposes and for inclusion in the project HSE and environmental file.
