Rev. No.	00
Rev. Date	05/05/2026

RFQ Reference Number:	CNWE-SH-RFQ-2026-32
------------------------------	----------------------------

Project Details:

Contract No:

Completion Date:	5 May 2028
-------------------------	------------

Scope of Work/Supply:

This scope is revised from the uploaded waste removal scope and refocused on domestic waste recycling only.

The Service Provider must tender on the recycling of the following domestic waste streams:

2. Excluded Waste

- Construction waste.
- Rubble.
- Scrap metal from construction activities.
- Cable offcuts.
- Timber waste.
- Pallets.
- PV module packaging waste.
- Food waste.
- Sewage waste.
- Chemical toilet waste.
- Medical waste.

- Hazardous waste.
- Used oil and oily waste.
- Chemical containers.
- Paint containers.
- Contaminated soil.
- Spill clean-up material.
- Damaged PV modules.
- Concrete washout waste.
- Any waste not accepted by the recycling facility.

3. Recycling Requirements

The Service Provider shall:

- Receive approved domestic recyclable waste from the project.
- Sort domestic recyclable waste into suitable recycling streams.
- Recycle, recover or process the waste through approved recycling methods.
- Prevent recyclable waste from being mixed with hazardous, food or construction waste.
- Confirm which domestic recyclable waste streams can be accepted.
- Confirm which domestic waste streams cannot be accepted.
- Provide recycling records for all waste received.
- Provide weight records or weighbridge slips where available.
- Provide monthly recycling reports.
- Ensure no waste is illegally dumped, buried, burnt or abandoned.

4. Collection and Transport Clarification

The Service Provider must clearly state whether the quotation includes or excludes collection and transport from site.

Where collection and transport are included, the Service Provider must:

- Collect only approved domestic recyclable waste.
- Use suitable vehicles.
- Secure all loads before transport.
- Prevent windblown waste during transport.
- Transport waste only to the approved recycling facility.
- Provide transfer notes and delivery records.

Where collection and transport are excluded, the project will appoint a separate transport contractor to deliver the domestic recyclable waste to the Service Provider.

5. Documentation and Records

The Service Provider must submit the following records:

- Recycling receipt.
- Waste transfer note.
- Weighbridge slip, where available.
- Recycling certificate.
- Monthly recycling report.
- Waste type received.
- Quantity received.
- Quantity recycled or recovered.
- Date received.
- Receiving facility details.
- Rejected waste record, where applicable.
- Corrective action record where waste is rejected or contaminated.

6. Tender Submission Requirements

The Service Provider must submit the following with the quotation:

- Company profile.
- Proof of domestic waste recycling experience.
- Recycling facility details.
- Facility licence, permit or approval, where applicable.
- List of domestic recyclable waste streams accepted.
- List of waste streams excluded.
- Recycling methodology.
- Sorting process.
- Weighing process.
- Reporting process.
- Collection and transport option, if available.
- Pricing schedule.
- Assumptions and exclusions.

	7. Pricing Requirements The quotation must clearly show pricing for: • Paper recycling. • Cardboard recycling. • Plastic recycling. • Aluminum can recycling. • Glass recycling, where accepted. • Sorting cost, where applicable. • Weighbridge cost, where applicable. • Recycling certificate cost, where applicable. • Collection and transport cost, if included. • VAT. • Any exclusions. 8. Project Requirement The Service Provider’s responsibility is limited to the recycling, recovery or processing of approved domestic recyclable waste from the PV Project. All recycling records must be suitable for audit purposes and for inclusion in the project HSE and environmental file.
