

	Notsi Solar Park (475 MW) Request for Quotation (RFQ)	Doc No.	NSI-00-PR-QUO-001
		Rev. No.	00
		Rev. Date	05/05/2026

<u>Date:</u>	28 May 2026
---------------------	-------------

<u>RFQ Reference Number:</u>	CNWE-SH-RFQ-2026-036
-------------------------------------	-----------------------------

You are hereby invited to tender for the below mentioned Scope of Work / Supply, in accordance with the Project Specifications and Requirements as specified.

<u>Project Details:</u>	
Project Name:	Notsi 475MW Solar Park
Contract No:	
Location:	Dealesville, Freestate, Tokologo Municipality
Completion Date:	5 May 2028

<u>RFQ Specific Details:</u>																																								
Scope of Work/Supply:	<u>The appointed Service Provider shall supply signage, printing, branding and document finishing services for the PV Project.</u> The service provider must tender on the supply, design, printing, delivery and installation of project signage, safety signage, branding material and printed documents required for construction site use. All safety signage must be suitable for a construction environment and must comply with applicable SANS / SABS requirements, including SANS 1186 where applicable. Public tender specifications for symbolic safety signage in South Africa commonly require SANS 1186-1 standard signs and general requirements, and SANS / SABS approved markings. <u>1. Items to be Tendered On</u> <table><tr><th>No.</th><th>Item / Service</th><th>Requirement</th></tr><tr><td>1</td><td>Safety signs</td><td>Mandatory, warning, prohibition, emergency and fire signs</td></tr><tr><td>2</td><td>Construction site signage</td><td>Site rules, PPE requirements, access control and hazard signs</td></tr><tr><td>3</td><td>PVC signs</td><td>Printed PVC signage for indoor and outdoor use</td></tr><tr><td>4</td><td>Chromadek boards</td><td>Outdoor construction boards and durable site signage</td></tr><tr><td>5</td><td>Vinyl printing</td><td>Vinyl stickers, labels, decals and branding</td></tr><tr><td>6</td><td>Banners</td><td>Outdoor banners for site and project communication</td></tr><tr><td>7</td><td>Posters</td><td>HSE posters, awareness posters and notice board material</td></tr><tr><td>8</td><td>Billboards</td><td>Large format project boards and public information boards</td></tr><tr><td>9</td><td>Pamphlets</td><td>Printed communication and awareness material</td></tr><tr><td>10</td><td>Business cards</td><td>Design and print of business cards</td></tr><tr><td>11</td><td>Logos</td><td>Logo placement, formatting and branding support</td></tr><tr><td>12</td><td>Binding</td><td>Binding of project documents, packs and reports</td></tr></table>	No.	Item / Service	Requirement	1	Safety signs	Mandatory, warning, prohibition, emergency and fire signs	2	Construction site signage	Site rules, PPE requirements, access control and hazard signs	3	PVC signs	Printed PVC signage for indoor and outdoor use	4	Chromadek boards	Outdoor construction boards and durable site signage	5	Vinyl printing	Vinyl stickers, labels, decals and branding	6	Banners	Outdoor banners for site and project communication	7	Posters	HSE posters, awareness posters and notice board material	8	Billboards	Large format project boards and public information boards	9	Pamphlets	Printed communication and awareness material	10	Business cards	Design and print of business cards	11	Logos	Logo placement, formatting and branding support	12	Binding	Binding of project documents, packs and reports

2. Safety Signage Requirements

The Service Provider must tender on safety signage suitable for the following:

- Mandatory PPE signs.
- No unauthorised access signs.
- Construction site entrance signs.
- Speed limit signs.
- Vehicle and pedestrian segregation signs.
- Mobile plant warning signs.
- Excavation warning signs.
- Electrical hazard signs.
- Live equipment warning signs.
- Work at height warning signs.
- Snake awareness / snake gaiter signs.
- First aid signs.
- Emergency assembly point signs.
- Fire extinguisher signs.
- Fire point signs.
- No smoking signs.
- Fuel storage signs.
- Chemical storage signs.
- Waste segregation signs.
- Environmental protection signs.

Safety signs must use recognised colours, symbols and formats suitable for workplace safety communication. SANS 1186 is used in South Africa for symbolic safety signs, including standard signs and general requirements.

3. Minimum Product Requirements

The Service Provider must ensure that all supplied items are:

- Suitable for construction site conditions.
- Suitable for outdoor exposure where required.
- UV resistant where required.
- Weather resistant where required.
- Durable and legible.
- Printed clearly with correct spelling and layout.
- Supplied in the correct size and material.
- Supplied with mounting holes, frames, poles or fixing accessories where required.
- Supplied in line with approved artwork before printing.
- Replaced if printed incorrectly or supplied with defects.

4. Design and Artwork Requirements

The Service Provider must provide design and artwork support where required.

This must include:

- Artwork layout.
- Logo placement.
- Colour matching where required.
- Project branding alignment.
- Print-ready proof before production.
- Final approval by the project team before printing.
- Correction of spelling, layout or logo placement before final print.

No final printing may take place before the project team approves the artwork proof.

5. Installation Requirements

Where installation is required, the Service Provider must tender separately for:

- Delivery to site.
- Installation of signs.
- Installation of Chromadek boards.
- Installation of billboards.
- Installation of poles and frames.
- Fixing of wall-mounted signs.
- Replacement or relocation of signs.
- Removal of old or damaged signs where instructed.

The Service Provider must comply with site access, induction, PPE and traffic requirements when installing signage on site.

6. Tender Submission Requirements

The Service Provider must submit the following with the quotation:

- Company profile.
- Product catalogue.
- Material options.
- Size options.
- Printing specifications.
- Design capability.
- Installation capability.
- Lead times.
- Delivery cost.
- Installation cost.
- Sample artwork or previous work examples.
- Confirmation that safety signs will comply with applicable SANS / SABS requirements.
- Pricing schedule.
- Assumptions and exclusions.

7. Pricing Requirements

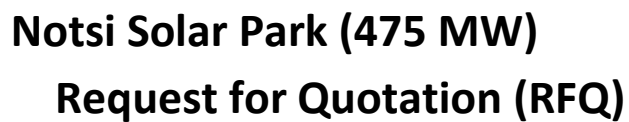

The quotation must clearly show pricing for:

- Safety signs.
- PVC signs.
- Chromadek boards.
- Vinyl printing.
- Stickers and labels.
- Posters.
- Pamphlets.
- Business cards.
- Banners.
- Billboards.
- Logo formatting and design.
- Binding.
- Laminating.
- Artwork and design cost.
- Delivery cost.
- Installation cost.
- Poles, frames and fixing accessories.
- VAT.
- Any exclusions.

8. Project Requirement

All signage, printing and branding material must be suitable for a construction PV project and must support site communication, HSE compliance, public information, access control, emergency response and project branding.
